

Transforming water into gold

ESTABLISHED DRILLING BUSINESS – A DOMINANT REGIONAL PLAYER

Servicing the Waikato region up to the far North, this business is the largest operation of its kind in the area, boasting a well-established client base and reputation as an industry leader and innovator.

For 35 years, the business has offered its drilling expertise for a wide range of projects.

- Life style blocks
- Farm supply
- Irrigation
- Industrial
- Domestic
- Town supply

With the significant growth of lifestyle blocks across the region, water wells have become the business' core revenue base. It's a market that shows no sign of abating with the top quarter of New Zealand's North Island being the most heavily populated in the country.

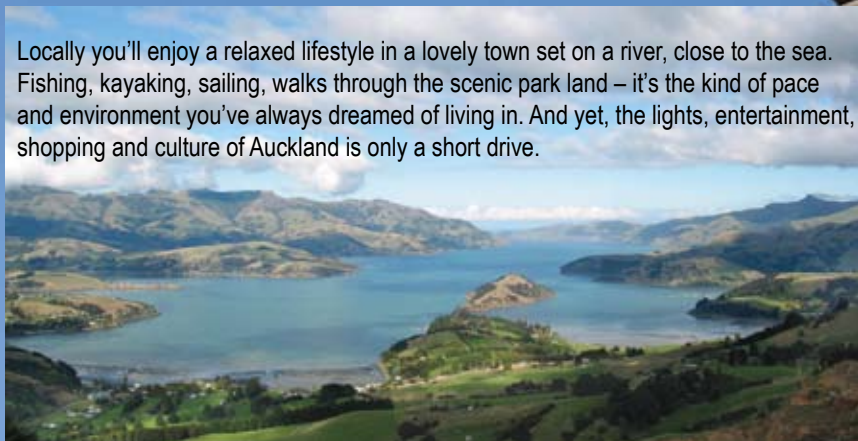

As the first drilling operation to introduce PVC constructed bores into New Zealand, the business enjoys a reputation as a market leader and innovator. Its well-maintained equipment and proven operational systems keep it well ahead of the limited competition.

The business operates from a quiet rural town that's surprisingly only 40 minutes from Auckland. The 2 ½-acre business' premises include fully equipped workshop, office and ample storage. Positioned on a main road, corner block, it has excellent exposure to traffic.

ALSO LOCATED ON THE SITE IS A 3-BERROOM, 2-BATHROOM RESIDENCE, MAKING IT AN EXCELLENT BUSINESS, LAND AND HOME PACKAGE.

With highly experienced staff already in place you'll be able to focus on developing the business further, building on its already significant foundations. Opportunities include expanding further south or branching into other products such as the geothermal heat loop market.

Locally you'll enjoy a relaxed lifestyle in a lovely town set on a river, close to the sea. Fishing, kayaking, sailing, walks through the scenic park land – it's the kind of pace and environment you've always dreamed of living in. And yet, the lights, entertainment, shopping and culture of Auckland is only a short drive.
